

THE CHECKER[®] INSPECTION CHECKLIST BOOKS

The Checker[®] Inspection Checklist books can help any business strengthen their inspection processes to improve safety.

Every Checklist Book includes equipment-specific detail, reminding personnel what to inspect and ensuring accountability. Inspect or audit virtually anything with inspection checklists for 100s of types of equipment, and we can also create custom forms.

Based on years of practical experience, The Checker[®] Inspection Checklist Books are simple, fast, accurate, and convenient to work with in the field.

THE CHECKER[®] CHECKLIST BOOKS:

- ✔ Are intuitive and simple to use
- ✔ Have the same standardized layout, so there is no need to learn new inspection formats
- ✔ List items in circle-check sequence, rather than alphabetically or arbitrarily
- ✔ Are visually simple and clear so employees can easily locate inspection items
- ✔ Are a practical and functional solution
- ✔ Are designed by an inspection company, not simply a book publisher
- ✔ Reduce the risks of non-compliance, downtime, and on the job incidents
- ✔ Pass the “works-in-real-life test”

INSPECTING IS SMART BUSINESS

THE CHECKER® CHECKLIST BOOKS

A strong inspection /audit program leads to improved safety, performance and saves money on costs such as:

- ✔ Liability exposure
- ✔ Non-compliance fines
- ✔ Lost work time
- ✔ Workers Comp premiums
- ✔ Property/equipment damage
- ✔ Maintenance

FEATURES AND FUNCTIONS

- ✔ 150 inspection checklists in each Checklist Book – For single-shift operations, that's more than 6 months of daily inspections.
- ✔ Equipment-specific detail ensure every critical aspect of a particular type of equipment is being checked.
- ✔ Standardized design – Although each Checklist Book has different detail, they all have the same consistent format.
- ✔ 2 copies – A carbonless-tear out and a permanent that stays in the book.
- ✔ 2 different style – Chose to check only defects or to check all compliant items.
- ✔ Room for comments – Personnel have plenty of room to make important notes about inspection results.
- ✔ Logical “circle-check” order of items – Items on the checklist are in the same order as they are when actually conducting inspections, meaning faster and easier inspecting.
- ✔ Easy storage – The Checker®’s weather-resistant storage pouches are designed specifically for Checklist Books and are easily mountable.

Make your inspections / audits / assessments program best in class.
